(A) the effort made by the applicant to build or maintain its existing endowment fund; and

(B) the degree to which an applicant proposes to match the grant with nongovernmental funds.

(g) APPLICATION.—Any institution which is eligible for assistance under this section may submit to the Secretary a grant application at such time, in such form, and containing such information as the Secretary may prescribe, including a description of the long- and short-term plans for raising and using the funds under this part. Subject to the availability of appropriations to carry out this section and consistent with the requirement of subsection (f), the Secretary may approve an application for a grant if an institution, in its application, provides adequate assurances that it will comply with the requirements of this section.

(h) TERMINATION AND RECOVERY PROVISIONS.—(1) After notice and an opportunity for a hearing, the Secretary may terminate and recover a grant awarded under this section if the grantee institution—

(A) expends portions of the endowment fund corpus or expends more than the permissible amount of the endowment funds income as prescribed in subsection (c)(3);

(B) fails to invest the endowment fund in accordance with the investment standards set forth in subsection (c)(2); or

(C) fails to properly account to the Secretary concerning the investment and expenditures of the endowment funds.

(2) If the Secretary terminates a grant under paragraph (1), the grantee shall return to the Secretary an amount equal to the sum of each original grant under this section plus income earned thereon. The Secretary may use such repaid funds to make additional endowment grants, or to increase existing challenge grants, to other eligible institutions under this part.

## **PART D—HISTORICALLY BLACK COLLEGE AND UNIVERSITY CAPITAL FINANCING**

### **SEC. 341. [20 U.S.C. 1066] FINDINGS.**

The Congress finds that—

(1) a significant part of the Federal mission in education has been to attain equal opportunity in higher education for low-income, educationally disadvantaged Americans and African Americans;

(2) the Nation's historically Black colleges and universities have played a prominent role in American history and have an unparalleled record of fostering the development of African American youth by recognizing their potential, enhancing their academic and technical skills, and honing their social and political skills through higher education;

(3) the academic and residential facilities on the campuses of all historically Black colleges and universities have suffered from neglect, deferred maintenance and are in need of capital improvements in order to provide appropriate settings for learning and social development through higher education;

(4) due to their small enrollments, limited endowments and other financial factors normally considered by lenders in construction financing, historically Black colleges and universities often lack access to the sources of funding necessary to undertake the necessary capital improvements through borrowing and bond financing;

(5) despite their track record of long-standing and remarkable institutional longevity and viability, historically Black colleges and universities often lack the financial resources necessary to gain access to traditional sources of capital financing such as bank loans and bond financing; and

(6) Federal assistance to facilitate low-cost capital basis for historically Black colleges and universities will enable such colleges and universities to continue and expand their educational mission and enhance their significant role in American higher education.

In the performance of and with respect to the Secretary's effectuation of his responsibilities under section 345(1) and to the maximum extent feasible in the implementation of the purposes of this part, minority business persons, including bond underwriters and credit enhancers, bond counsel, marketers, accountants, advisors, construction contractors, and managers should be utilized.

**PART E—MINORITY SCIENCE AND ENGINEERING IMPROVEMENT PROGRAM**

**SUBPART 1—MINORITY SCIENCE AND ENGINEERING IMPROVEMENT PROGRAM**

**SEC. 350. [20 U.S.C. 1067] FINDINGS.**

Congress makes the following findings:

(1) It is incumbent on the Federal Government to support the technological and economic competitiveness of the United States by improving and expanding the scientific and technological capacity of the United States. More and better prepared

scientists, engineers, and technical experts are needed to improve and expand such capacity.

(2) As the Nation's population becomes more diverse, it is important that the educational and training needs of all Americans are met. Underrepresentation of minorities in science and technological fields diminishes our Nation's competitiveness by impairing the quantity of well prepared scientists, engineers, and technical experts in these fields.

(3) Despite significant limitations in resources, minority institutions provide an important educational opportunity for minority students, particularly in science and engineering fields. Aid to minority institutions is a good way to address the underrepresentation of minorities in science and technological fields.

(4) There is a strong Federal interest in improving science and engineering programs at minority institutions as such programs lag behind in program offerings and in student enrollment compared to such programs at other institutions of higher education.

**SEC. 351. [20 U.S.C. 1067a] PURPOSE; AUTHORITY.**

(a) It is the purpose of this subpart to continue the authority of the Department to operate the Minority Institutions Science Improvement Program created under section 3(a)(1) of the National Science Foundation Act of 1950 and transferred to the Department by section 304(a)(1) of the Department of Education Organization Act of 1979.

(b) The Secretary shall, in accordance with the provisions of this subpart, carry out a program of making grants to institutions of higher education that are designed to effect long-range improvement in science and engineering education at predominantly minority institutions and to increase the participation of underrepresented ethnic minorities, particularly minority women, in scientific and technological careers.

**SEC. 352. [20 U.S.C. 1067b] GRANT RECIPIENT SELECTION.**

(a) **ESTABLISHMENT OF CRITERIA.**—Grants under this subpart shall be awarded on the basis of criteria established by the Secretary by regulations.

(b) **PRIORITIES TO BE GIVEN IN CRITERIA.**—In establishing criteria under subsection (a), the Secretary shall give priority to applicants which have not previously received funding from the Minority Institutions Science Improvement Program and to previous grantees with a proven record of success, as well as to applications that contribute to achieving balance among projects with respect to geographic region, academic discipline, and project type.

(c) **REQUIRED CRITERIA.**—In establishing criteria under subsection (a), the Secretary may consider the following selection criteria in making grants:

- (1) plan of operation;
- (2) quality of key personnel;
- (3) budget and cost effectiveness;
- (4) evaluation plan;
- (5) adequacy of resources;
- (6) identification of need for the project;

- (7) potential institutional impact of the project;
- (8) institutional commitment to the project;
- (9) expected outcomes; and
- (10) scientific and educational value of the proposed project.

**SEC. 353. [20 U.S.C. 1067c] USE OF FUNDS.**

(a) TYPES OF GRANTS.—Funds appropriated to carry out this subpart may be made available as—

- (1) institutional grants (as defined in section 365(6));
- (2) cooperative grants (as defined in section 365(7));
- (3) design projects (as defined in section 365(8)); or
- (4) special projects (as defined in section 365(9)).

(b) AUTHORIZED USES FOR EACH TYPE OF GRANT.—(1) The authorized uses of funds made available as institutional grants include (but are not limited to)—

- (A) faculty development programs; or
- (B) development of curriculum materials.

(2) The authorized uses of funds made available as cooperative grants include (but are not limited to)—

- (D) carrying out a combination of any of the activities in subparagraphs (A) through (C).

(3) The authorized uses of funds made available as design projects include (but are not limited to)—

- (A) developing planning, management, and evaluation systems; or
- (B) developing plans for initiating scientific research and for improving institutions' capabilities for such activities.

Funds used for design project grants may not be used to pay more than 50 percent of the salaries during any academic year of faculty members involved in the project.

(4) The authorized uses of funds made available as special projects include (but are not limited to)—

- (A) advanced science seminars;
- (B) science faculty workshops and conferences;
- (C) faculty training to develop specific science research or education skills;
- (D) research in science education;
