## Monetary Award Program

### Eligibility requirements

- Enrolled in at least 3 credit hours at a MAP-approved school
- May be paid for up to 135 credit hours of enrollment
- Undergraduate Illinois residents with program-determined “need” greater than \$300
- May not be in default on any Title IV program

### Application Volume

- Application volume peaked in FY2013 at more than 525,000 applications, and has decreased every year since, with the exception of a slight increase in FY2018, when FAFSA filing began 3 months earlier.
- Application volume decreased about 4% from FY2020 to FY2021, and decreased another 3% in FY2022. FY2022 application volume was almost 31% lower than in FY2013.
- Between FY2013 and FY2022, the largest decline was in the Public 2-Year sector, where volume was down 40%, compared to 15% for Public 4-Year and 19% for PNFP institutions. The closure of several Proprietary schools contributed to sharp declines in that sector.
- Between FY2013 and FY2022, application volume from Independent students was down 49%, compared to a 15% decrease for Dependents.

Monetary Award Program Announced Applicants

Announced Applicants: Illinois residents who completed an application for financial aid, had not yet earned a Bachelor's degree, and whose first-choice school participates in MAP. PNFP: Private Not-for-Profit institutions

## Program Funding

- In the past five years, nearly 100% of the MAP funding allocated for grant awards was spent.

### Funding Allocated for Grants / Lapse (\$M)

Year	Available to Spend	Spent	Lapse	% Spent
FY2018	\$393.3	\$392.5	\$0.2	99.8%
FY2019	\$393.3	\$392.4	\$0.9	99.7%
FY2020	\$442.3	\$442.9	\$0.6	101.1%
FY2021	\$442.3	\$440.6	\$1.7	99.6%
FY2022	\$470.0	\$467.7	\$2.3	99.5%

Selected program appropriations are available beginning with FY1980 in Table 1.0 of 2021 ISAC Data Book. During the time period covered by this report, ISAC has been authorized to use up to 2% of total MAP funding for operations. The “Available to Spend” figures above represent 98% of the annual program appropriation. The FY2017 appropriation was not provided until after the academic year had been completed. In FY2020 part of the 2% ISAC administration allowance was used for awards.

- In FY2013, award amounts for nearly 10,000 “released” applicants (those who were originally placed on a “wait list” for a grant) were reduced 10% to keep claims within the appropriation.
- In FY2015, Governor Rauner instituted a 2.25% across-the-board budget cut. In response, no suspended awards were released, but awards already announced were not reduced.
- In FY2016, no complete state budget was reached. MAP was appropriated \$169.8 million to cover first-term claims. An additional \$151.0 million was allocated for FY17 but designated to cover FY16 claims.
- In FY2017, the MAP appropriation was not provided until after the school year had ended.
- FY2018 was the first year of “early FAFSA.” The filing season began on October 1, 2016 instead of January 1, 2017. Also, prior-prior year income was requested on the FAFSA instead of prior year, to enable the use of tax information that had already been filed.
- MAP received \$36m more in FY2018, \$50m more in FY2020, and \$28m more in FY2022. These increases funded some much-needed updates to eligibility formula components as well as additional awarding.

## MAP Grant Purchasing Power

MAP has not offered full coverage of tuition and fees since FY2002. As application volume soared, and funds directed towards serving more students, coverage declined to about two-thirds by FY2007, and to less than half (46% and 39% at Public 2- and 4-Year schools, respectively) by FY2012. Funding increases in FY2018, FY2020, and FY2022 enabled formula improvements – incorporation of 2009-10 tuition and fees, removal of the reduction factor, improved living allowance, and higher MAP Maximum (from \$4,968 to \$5,340 in FY2020 and to \$5,496 in FY2022).

As shown in the table below, the formula improvements did not result in large improvements, but they did help coverage hold steady. In FY2022, the maximum MAP grant at Public 4-Year institutions covers nearly 33% of tuition and fees. At Private Institutions, the maximum MAP covers about 13% of tuition and fees, down from 29% in FY2002. Due to relatively low T&F at community colleges, and the fact that 80% of Pell is included as a resource in the MAP formula, MAP awards for most community college MAP recipients are determined by maximum eligibility, rather than tuition and fees amount, and this is reflected in the table. Nearly all community college MAP recipients, and close to ninety percent in other sectors, are also eligible for federal Pell grants. Full-time Zero EFC students would have received the maximum Pell grant. A change in the COLA raised the highest MAP award for Zero EFC, Public 2-year students.
