Basic ISAC Program Data 2023

Monetary Award Program

Eligibility requirements

- Enrolled in at least 3 credit hours at a MAP-approved school
- May be paid for up to 135 credit hours of enrollment
- Undergraduate Illinois residents with program-determined “need” greater than \$300
- May not be in default on any Title IV program

Application Volume

- Application volume peaked in FY2013 at more than 525,000 applications, and has decreased every year since, with the exception of a slight increase in FY2018, when FAFSA filing began 3 months earlier.
- Application volume decreased about 4.0% from FY2020 to FY2021 and decreased another 3% in FY2022. Volume decreased another 2.4% from FY2022 to FY2023. FY2023 application volume has decreased more than 32% since FY2013.
- Between FY2013 and FY2023, the largest decline was in the Public 2-Year sector, where volume was down 40%, compared to almost 17% for Public 4-Year and 24% for PNFPI institutions. The closure of several Proprietary schools contributed to sharp declines in that sector.
- Between FY2013 and FY2023, application volume from Independent students was down 50%, compared to a 17% decrease for Dependents.

Announced Applicants: Illinois residents who completed an application for financial aid, had not yet earned a bachelor’s degree, and whose first-choice school participates in MAP. PNFPI: Private Not-for-Profit institutions

Program Funding

- In the past five years, nearly 100% of the MAP funding allocated for grant awards was spent.

Funding Allocated for Grants / Lapse (\$M)

Year	Available			
	to Spend	Spent	Lapse	% Spent
FY2019	\$393.3	\$392.4	\$0.9	99.7%
FY2020	\$442.3	\$442.9	\$-0.6	100.1%
FY2021	\$442.3	\$440.6	\$1.7	99.6%
FY2022	\$470.0	\$467.7	\$2.3	99.5%
FY2023	\$589.0	\$595.9	\$-6.9	101.2%

Selected program appropriations are available beginning with FY1980 in Table 1.0 of 2021 ISAC Data Book. During the time period covered by this report, ISAC has been authorized to use up to 2% of total MAP funding for operations. The “Available to Spend” figures above represent 98% of the annual program appropriation. The FY2017 appropriation was not provided until after the academic year had been completed. In FY2020 part of the 2% ISAC administration allowance was used for awards.

- In FY2013, award amounts for nearly 10,000 “released” applicants (those who were originally placed on a “wait list” for a grant) were reduced 10% to keep claims within the appropriation.
- In FY2015, Governor Rauner instituted a 2.25% across-the-board budget cut. In response, no suspended awards were released, but awards already announced were not reduced.
- In FY2016, no complete state budget was reached. MAP was appropriated \$169.8 million to cover first-term claims. An additional \$151.0 million was allocated for FY17 but designated to cover FY16 claims.
- In FY2017, the MAP appropriation was not provided until after the school year had ended.
- FY2018 was the first year of “early FAFSA.” The filing season began on October 1, 2016 instead of January 1, 2017. Also, prior-prior year income was requested on the FAFSA instead of prior year, to enable the use of tax information that had already been filed.
- MAP received \$36m more in FY2018, \$50m more in FY2020, \$28m more in FY2022, \$121 million more in FY23, and \$100 million more in FY2024. These increases funded some much-needed updates to eligibility formula components as well as additional awarding.

MAP Grant Purchasing Power

MAP has not offered full coverage of tuition and fees since FY2002. As application volume soared, and funds were directed towards serving more students, coverage declined to about two-thirds by FY2007, and to less than half (46% at Public 2- and 39% at 4-Year schools) by FY2012. Funding increases in FY2018, FY2020,

and FY2022-FY2024 enabled formula improvements – removal of the reduction factor, use of 2021-22 tuition and fees in FY2023, improvements to the living allowance, and higher MAP Maximum Awards (from \$4,968 to \$5,340 in FY2020; \$5,496 in FY2022; \$7,200 in FY2023; and \$8,400 in FY2024).

As shown in the table below, formula improvements through FY2022 merely held tuition and fee coverage steady. In FY2022, MAP grants were (eventually) offered to all who applied, and application volume was still decreasing. As a result, the \$122 million increase in FY2023 and \$100 million increase in FY2024 focused solely on improving the formula. In FY2024, the maximum MAP grant covers 50% of sector-average tuition and fees at Public Universities, up from 33% in FY2002. At Private Institutions, the maximum MAP now covers about 19% of tuition and fees, up from 13% in FY2022. Due to relatively low T&F at community colleges, and the fact that 80% of Pell is included as a resource in the MAP formula, community college MAP awards are typically determined by maximum eligibility, rather than tuition and fees. In FY2024, a MAP grant for a community college student with no resources covers over 60 percent of tuition and fees. Additionally, nearly all community college MAP recipients, and more than 90 percent in other sectors, are also eligible for federal Pell grants. Students with no resources (zero EFC), which make up about 65% of community college and about 47 percent of four-year school MAP recipients, are eligible for the \$7,395 maximum Pell in FY2024.

Special Purpose Programs

Additional information about each program in this section is contained in the 2023 ISAC Data Book.

AIM HIGH

- The Aspirational Institutional Match Helping Illinois Grow Higher Education (AIM HIGH) Grant Pilot Program was created to help increase overall Illinois college student retention and slow student outmigration
- Since the 2019-20 academic year, AIM HIGH has provided merit-based, means-tested student financial aid to first-time, full-time undergraduate students (including transfer students) attending any of the 12 Illinois public four-year universities.
- Institutions are also required to guarantee renewability and predictability for recipients, as well as match AIM HIGH state funds expended each year with new non-loan financial aid above institutional aid distributed in academic year 2017-18.
- AIM HIGH is forward-funded. FY2022 appropriations were for awards made in AY2022-23.

Early Childhood Access Consortium for Equity (ECACE) Scholarship Program

- Program was created to address the shortage of qualified early childhood educators by encouraging the pursuit of credentials and advancement of already-held degrees in early childhood education, with an aim toward building a strong, well-prepared workforce.
- Awards are available for undergraduate and graduate study at public and non-profit private 2- and 4-year Gateways-entitled and Early Childhood Access Consortium for Equity member institutions.
- Although not a conditional grant, recipients of the scholarship are expected to continue or return to teaching or direct services in the early childhood care and education field in Illinois after they complete their program of study.
- The program will be federally funded through 2024.

Higher Education License Plate Program

- Collegiate license plates are one type of specialty plate issued in Illinois. Public institutions with collegiate plates can draw the funds from license plate sales directly from the Comptroller's Office. HELP allows ISAC to be the conduit to the funds for private institutions.
- \$25 of each license plate sale for a school is placed into a fund for each participating school.
- Awards are need-based and may be for up to \$2,000 annually for full-time study. The actual number of recipients is not known - an average award of \$250 is used to estimate recipients.

Year	Expenditures	Recipients
FY2019	\$96,350	385
FY2020	\$95,750	383
FY2021	\$99,950	400

Grant Program for Exonerees

- Provides grants for up to the cost of tuition and fees to persons who have been issued a pardon by the Governor of the State of Illinois on the grounds of innocence of the crime for which they had been imprisoned or who have received a certificate of innocence from a circuit court. First funded in FY20.
- Benefits may be used to meet the costs of postsecondary enrollment at an Illinois public college or community college or for the cost of obtaining a high school equivalency certificate.
- Qualified applicants may receive Grant Program for Exonerees benefits for the equivalent of four regular school years (eight semesters) of full-time enrollment.
- There were 3 applicants in 2023, 1 was ineligible and 2 were incomplete.
